Cleaning Code

Standard Care Label W-S. Commercial wash at 160°F maximum wash temperature using detergents recommended for the type of washing machines being used, no chlorine bleach. Rinse warm. Do not overload the washer as this may result in inadequate cleansing of the fabric and excessive wrinkling. Dry on synthetic (cool) setting until slightly damp or just dry. Do not overload the dryer. Over-drying or drying at hot temperatures may cause unacceptable shrinkage to occur. If necessary, press with a cool iron ("polyester" or "synthetics" setting, max temp 275° F).
